Finley Messick, Executive Director of the Kentucky Ready Mix Concrete Association, directs educational and marketing efforts for the ready mixed concrete industry, their potential clients, and the general public.

Prior to joining the KRMCA staff, he was with the Carolinas Ready Mixed Concrete Association as Director of Education & Marketing for North & South Carolina. Before serving the CRMCA he was a ready mixed concrete producer for 18 years.

LEED stands for the Leadership in Energy and Environmental Design and it represents the U.S. Green Building Council's effort to provide a national standard for "Green Buildings". This rating system is intended to be used as a design guideline to improve occupant well-being, environmental performance, sustainability, durability, and economic returns of buildings using established and innovative practices, standards and technology. This presentation is designed to educate designers about how ready mixed concrete can be used to contribute towards LEED certification. This program was developed by the National Ready Mixed Concrete Association

Have you ever noticed how concrete is used in many quotations as a analogy for “permanent”?

Reduce your plan to writing. The moment you complete this, you will have definitely given concrete form to the intangible desire.”

[Napoleon Hill](#)

“There is plenty of courage among us for the abstract but not for the concrete.”

[Helen Keller](#)

“It is in literature that the concrete outlook of humanity receives its expression”

[Alfred North Whitehead](#)
