**Moisture Problems in Concrete**

This month's speaker is Robert Cain, President of the Key Resin Company. Mr. Cain has spent the better part of 40 years advancing the concrete flooring industry taking it from a product expected to fail or deteriorate to a decorative element that's seen just about everywhere these days. One of the many issues Robert has been grappling with lately is that of moisture transmission in concrete which will be the focal point of his presentation.

ACI GMVC will provide a certificate for one PDH to anyone who attends the ACI GMVC presentation. The request for a PDH certificate must be made at the sign-in table upon entering the presentation and the certificate will be available immediately after the presentation.

*We are always looking for meeting topics. If you have a suggestion, please contact a board member.*
